PROFESSIONAL SUMMARY

MERN Stack Developer with hands-on experience building full-stack web applications using React.js, JavaScript, Node.js, Express.js, MongoDB, REST APIs, and SQL. Experienced in responsive UI development, reusable components, API integration, database-driven functionality, debugging, and end-to-end application workflows. Currently working as a MERN Stack Intern with practical exposure to authentication, backend architecture, database connectivity, and full-stack development.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, SQL, Java
Frontend: React.js, Redux Toolkit, RTK Query, Next.js, HTML5, CSS3, Tailwind CSS
Backend: Node.js, Express.js, REST APIs, JWT, Spring Boot
Databases: MongoDB, MySQL, PostgreSQL
Tools: Git, Postman, Docker, VS Code, MySQL Workbench
Additional: React Native

PROFESSIONAL EXPERIENCE

MERN Stack Intern May 2026 – Present

CrowdApps Technology

- Develop full-stack features using React.js, reusable components, responsive layouts, REST APIs, Node.js, Express.js, and MongoDB.
- Integrate frontend components with backend services and database operations to support end-to-end application workflows.
- Use Git and Postman for source-code management, API testing, debugging, and development workflows.
- Work with authentication, database connectivity, backend architecture, troubleshooting, and full-stack application development.

Network and Hardware Engineer September 2025 – April 2026

S.J.P Global Limited, Mathura, India

- Supported LAN/Wi-Fi infrastructure, hardware installation, system configuration, and day-to-day technical operations.
- Worked with TCP/IP, IP addressing, routers, switches, desktops, printers, and network devices while troubleshooting connectivity and hardware issues.

PROJECTS

Braj Darshan – Full-Stack Web Application September 2026 – Present

React.js, Vite, React Router, Node.js, Express.js, MongoDB, REST APIs, JavaScript, CSS

- Developed a full-stack web application covering temples, places, yatras, panchang, events, and food across the Braj region.
- Built responsive React.js interfaces with reusable components and route-based navigation for modular content sections.
- Developed Express.js REST APIs and integrated MongoDB for database-driven content and application workflows.

Task Management Application – MERN Stack

MongoDB, Express.js, React.js, Node.js, REST APIs

- Built a MERN-based task management application with CRUD operations for creating, updating, completing, and deleting tasks.
- Developed reusable React components and integrated REST APIs with MongoDB for persistent task management.

Grocery Management System – Full-Stack Application

React.js, Spring Boot, Hibernate

- Developed a full-stack grocery management application using React.js with Spring Boot and Hibernate for backend and database integration.
- Implemented frontend-backend communication and persistent data handling for grocery management workflows.

EDUCATION

Master of Computer Applications (MCA) 2023 – 2025
GLA University, Mathura

Bachelor of Science (B.Sc.) 2020 – 2023
Dr. B.R. Ambedkar University, Agra

CERTIFICATION

Course on Computer Concepts (CCC) – NIELIT Grade A, 2021

LANGUAGES & STRENGTHS

Languages: English, Hindi **Strengths:** Problem Solving, Logical Thinking, Communication, Collaboration
